Today the Term Security is synonymous with Low Current Systems, and for over 35 years "GULF SECURITY EQUIPMENT" has been acquiring agencies of renowned Manufacturers in all Security and Low current fields. Our objective is to keep a keen eye on companies with a stress on R&D. GSE is a Specialized Low Current, Security & Communication Systems Contractor. Starting with small-scale projects in various fields we have been picking up momentum and expertise to handle medium Sized and Large Scale Projects involving multi-level integration between various systems. Under the Banner of Gulf Security Equipment a full integration house developed, combining Fire Alarm, Surveillance, Access Control, Automation, Public Address & Giant Voice, Intercommunication, Building Management Systems, SMATV, as well as Audio Visual & Multimedia systems...and our dedication to expanding our expertise has no limits.
